DETAILED ACTION

1. This communication is in response to amendment filed 6/12/06.

Response to Amendment

2. Claims 1, 9, 34, 35 have been amended. Claim 2 has been cancelled. Claims 1, 3-12, 20 and 34-45 are currently pending and have been examined.

Response to Arguments

3. Applicant's arguments with respect to claims have been considered but are moot in view of the new ground(s) of rejections.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 1, 3-12, 20 and 34-45 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

It is suggested that the process steps comprising automated commerce be identified as such.

Art Unit: 3693

Claim 1 recites in the preamble refers to “a method for performing automated commerce ordering”. However, the body of the claims fails to recite such a method because no step is indicative of “automated commerce”.

Claim 1 is indefinite due to certain process steps being performed only when condition is met, specifically that the “budget does not exceed a budget maximum”. The claim does not specify what process is performed if any when the alternative condition exists, specifically if the budget exceeds the budget maximum. This problem may be resolved by positive recitation if the condition as follows:

- verifying that the budget is within a budget maximum limit;

- approving the budget subsequent to the verification;

- creating a work order for each line item.. ...;

- transmitting the work order

- receiving invoice information from the vendor, the invoice information responsive to the transmitted work order and includes an invoiced price;

- approving the invoiced price upon verifying that the invoiced price is within the approved work order price or a preset coverage tolerance; and

- initiating payment of the approved invoice price to the vendor;

... ..

The claim is also indefinite because it fails to correlate the work order to the invoice information. In particular, the claims fail to point out specific relationship of information received from the vendor and the work order transmitted to the vendor.

The apparatus claims 34 and 35 also contain similar deficiencies and are rejected accordingly.

Art Unit: 3693

Allowable Subject Matter

The pending claims would be considered for allowance subject to amendment to the claims resolving the foregoing defects.
